**MARKET OUTLOOK FOR TODAY...**

Key benchmark indices are likely to open lower as sentiment is not very positive and clear in the global markets. Asian stocks traded mixed, after U.S. stocks ended almost unchanged, pressured by mixed signals from the U.S. labour market and growing anxiety over fiscal problems in Europe. However, volatility may remain high as investors may remain cautious over sovereign debt problems in the euro zone.

According to data released by the NSE, in the last session, **FII**s were buyers of index futures to the tune of Rs 12.05 crore while sold index options worth Rs 52.08 crore. They were net buyers of stock futures to the tune of Rs 8.26 crore while sold stock options worth Rs 0.3 crore.
